A MESSAGE FROM SUPERVISOR FRANK P. PETRONE

Dear Fellow Huntington Resident:

On behalf of myself and my colleagues on the Town Board, I am pleased to present our **2014 Trash Pickup and Recycling Calendar**. This easy-to-follow guide contains detailed information about our trash collection and recycling programs. The calendar is designed to ensure that your refuse and recycling service is efficient, user-friendly, and convenient. By following this calendar and its simple rules, you are instrumental in the program's continued success.

Thanks to your cooperation and commitment, the Town of Huntington remains a leading municipality on Long Island with regard to recycling. For example, in 2013, our residents recycled an estimated 9,100 tons of paper and cardboard; 4,900 tons of commingled glass bottles, plastics and metal cans; over 120 tons of electronic waste; and composted over 19,300 tons of yard waste. The more we recycle, the greater the benefit to the environment.

In February 2013, the Town began a curbside recycling program for electronic devices. Recycling these obsolete electronics removes hazardous materials from the waste stream. In less than a year, the program is already a great success. In order to participate, all you need do is call the Town's Refuse Department at 631-351-3239 to schedule an appointment. New York State Law will require that certain electronics covered by the NYS Electronic Equipment Recycling and Reuse Act are recycled beginning January 1, 2015. Our curbside program addressed this requirement almost two years ahead of the state mandate. If you would like additional information, please visit the Town's web page on this program at <http://huntingtonNY.gov/E-wasteCurbside>

I would also like to apprise you of another program that is important to all residents. "Huntington Alert" is the Town of Huntington's notification system for weather and public safety emergencies. It is used when the Town and its Agencies need to provide you with urgent information and instructions. While the Town uses a database with many listed telephone numbers, it is not complete, so you should sign up by clicking the Huntington Alert link on the Town's home page. If you prefer that we contact you at a different number, you can click on the link and provide your desired contact information. You can even give us your e-mail address or your cell phone number for text alerts.

For additional information on Town services, departments, programs, news highlights, and meeting times, please check the Town's web site at <http://huntingtonNY.gov>. If you happen to misplace this calendar, you can always refer to the calendar on the web site; a downloadable version of this calendar is also available.

As always, we welcome your comments and suggestions. Please contact us on the web through "Huntington @ Your Service". Like the sign-up for Huntington Alert, you can access Huntington @ Your Service from the Town's website home page. If you prefer to contact us by telephone, please call our Sanitation Hotline at (631) 351-3186. This number is available 8:30 a.m. to 4:30 p.m., Monday through Friday.

We wish you and your family a healthy, happy, and prosperous New Year.

Frank P. Petrone

Councilman Mark Cuthbertson (left) is pictured speaking with Charlie Murphy and Daniel Crowe of the North Shore Baymen's Association about the Town's successful clam grow-out program – F.L.U.P.S.Y. Floating Upwelling System at Gold Star Battalion Beach in Huntington. This program has contributed tremendously to the increased shellfish population in the Long Island Sound and is made possible through the efforts of Cornell Cooperative Extension's Marine Division.

Councilwoman Susan Berland attends a meeting with Huntington Lighthouse Preservation Society volunteers. The Huntington Lighthouse Preservation Society is dedicated to keeping the lighthouse open to the public for educational purposes and has recently begun a program to help teach environmental awareness and local history to Huntington students.

Supervisor Frank Petrone with some of the recycled e-waste collected from the Town's new curbside e-waste recycling program. The program allows residents to make an appointment to have their electronic recycling collected curbside at their homes. For more information, see page 11 in this calendar.

Councilman Eugene Cook enjoys a welcome bit of laughter with local resident Richard Polesney while clearing snow on Westbrook Court in Greenlawn during the February 8, 2013 snow storm. "Yes, I thought bringing my own equipment could be of assistance to our Town residents," states Gene Cook.

Councilwoman Tracey Edwards demonstrates the GPS tracking technology used on all Town garbage trucks. This technology allows for timely response to resident service requests.

GRASS RECYCLING

1. Allow your lawn to grow at least three inches high. When mowing cut no more than one inch off the top. Mow only when the grass is dry.
2. Leave the grass clippings in place - **DO NOT BAG THEM**. The clippings decompose quickly, are a natural fertilizer, keep the lawn moist, and protect against disease.
3. Water your lawn in the early morning hours (between 6:00 and 10:00 a.m.) Water a maximum of three to four hours per week, less if it rains.
4. Don't over-fertilize. Grass clippings left in place actually fertilize your lawn. Fertilizer need be applied only three times a year – around Memorial Day, Labor Day, and Thanksgiving.
5. Keep your mower blade sharp and consider investing a mulching blade for your current lawn mower. These blades cut and recut the grass more finely and greatly aid the decomposition process. When it comes time for a new mower, consider replacing it with a mulching or recycling mower.

COMPACT FLUORESCENT LIGHTS DISPOSAL

Compact Fluorescent Lights (CFL's) are energy efficient bulbs that use 75% less energy than traditional incandescent bulbs and last up to ten times longer. While they are good for reducing energy people should also be aware that CFL's contain very small amounts of mercury. If these bulbs are discarded in normal trash or curbside recycling containers after they burn out they will break and could release mercury into the environment.

CFL BULBS SHOULD BE RECYCLED AT THE TOWN'S RECYCLING CENTER AFTER THEY BURN OUT

TOWN CODE STANDARDS

Oversized Garbage Cans and/or Bungee Cords are illegal and poses a danger to carters.

It is a violation of the Town Code to place at curbside garbage receptacles that are either oversized or overweight. These cans and lids secured with bungee cords have been known to cause serious work-related injuries to our sanitation collectors. Always use the correct-sized garbage can. For our residents' benefit, the actual Town Code Regulation pertaining to this is reprinted here:

Town Code Standards for Storage of Waste Prior to its Collection:

It shall be the responsibility of the owner, tenant, or occupant of a residential property to provide receptacles of sufficient capacity to contain the solid waste ordinarily generated of that property during ninety-six (96) consecutive hours. The receptacles shall be kept closed and maintained in good and sanitary condition by periodic cleaning, and, when filled, **each receptacle shall not exceed fifty (50) pounds in total weight or thirty-nine (39) gallons in volume.**

Thank you for your cooperation

DISPOSAL OF UNUSED MEDICINES & PRESCRIPTION PHARMACEUTICALS

The Suffolk County Police Department has a take back program called OPERATION MEDICINE CABINET. Residents

PROPER DISPOSAL OF HOUSEHOLD SHARPS

Many community residents use SHARPS – hypodermic needles, lancets, or other instruments – to manage their health care at home. Proper disposal of these instruments protects family members and our sanitation workers from accidental injury.

NEVER DISPOSE OF LOOSE SHARPS IN NORMAL HOUSEHOLD TRASH

If you use household SHARPS to manage your diabetes or other medical conditions, please follow these procedures for proper disposal.

- Use a puncture-proof plastic container with a tight-fitting screw top. Plastic soda bottles and bleach/laundry detergent containers all work well.
- Do not use glass containers or coffee cans.
- Label the container clearly. Write "CONTAINS SHARPS" with a waterproof marker directly on the containers, or masking tape on the container.
- After using the syringe or lancet, immediately put it into the container. Screw the top on. Do not clip, bend or recap needles because you may injure yourself.
- Keep container away from children.
- When the container is full, screw on the top tightly. Seal with heavy duty tape.
- Place the sealed container with your regular refuse for safe disposal.

CONTAINERS WITH SHARPS INSIDE CANNOT BE RECYCLED!
